OWA Vessel Class Inspections

Ocean Works Asia (OWA) underwater service provider for diving and ROV to conduct In-water surveys on vessels to the requirements of class. In-water surveys like:

- UWILD – Underwater Inspection in Lieu of Drydock
- Pre-sale inspections on behalf of buyers
- Damage and condition surveys

With a team of experienced diving and ROV personnel backed by extensive inhouse training, the in-water inspections are carried out swiftly and professionally to meet our client's needs and expectations. Our onsite dive and ROV teams are backed by a reporting team giving OWA the ability to deliver a high standard of reporting taking the minimum amount of time.

Having regional business units with equipment and personnel based in Thailand, Indonesia Myanmar and Singapore OWA is able to swiftly mobilise a dive and/or ROV team at the request of a client providing a cost-effective solution within a minimal time frame.

OWA group business units are currently approved by the following class societies:

- American Bureau of Shipping
- Biro Klasifikasi Indonesia (BKI)
- Bureau Veritas
- DNV GL
- Nippon Kaiji Kyokai (ClassNK)
